

Needs (money and time assumed!)		Offers (every PhD is assumed also to be a need for a good student!)	
Who	What	Who	What
GP, BE	Ideas for nice ways to analyse and summarize simulations	GP	Desk and supervision for students (on mutually interesting topics)
GJH	ABM of SES	Var	ESSA/Silico summer school, 26-30 June, Wageningen
PBJ	Build a model of the evolution of the framing effect	BE	Desk for someone to visit to talk about ABM
MS	Tools and approaches to analyse SES models	CLP, GA	MISS ABMS course, Montpellier, 4-15 Sept.
MH	People interested in advanced analysis of simulation data	MS	PhD position on cross-scale agriculture
JS	Decision theories in ABMs	JS	Experience in serious games
JS	AVMs on environmentally-induced human migration	JS	Behavioural Environmental Science Forum at UFZ
CG	Materials to disseminate what we did and/or are doing here (e.g. tools and teaching materials)	CG	univiu.org for future common activities
KT	Ecosystem service paper reviewers	MH	Ideas/expert network on analysing complex simulations
ML	Follow discussions on spatial games in SES	ML	Playground on SES modelling LAFORÉ, ECU, PHIL, CZAM
ML	Software company allies	NS	PhD position on urban land use change and food production (end 2017)
DN	Postdoc in ABM	NS	Desk and supervision
DN	Help modelling behaviour of "countries"	DN	Knowledge on global food/energy systems dynamics and environmental conflict
VAP	Need training and/or position in SES modelling, simulations and analysis	VAP	Himself!
SM	Ideas for mixing fuzzy cognitive mapping and agent-based modelling	SM	Experience of using fuzzy cognitive mapping
MB	Good ways of including agriculture in a global model	MB	Global ecosystem services modelling
MB	A way to implement a "centre" for ABM of SES to make a difference	MB	Scaling simulations to large sizes LTG(?) in Netlogo
FD	Methodology for SES	FD	See poster
TX	How to increase the impact of agent based modelling	FD	Computational Social Cognitive Systems (a new journal)
NG	People to work with and stimulating discussion	TX	Link to the ecological community that has worked on past systems and experience on working on historical systems

Needs (money and time assumed!)		Offers (every PhD is assumed also to be a need for a good student!)	
Who	What	Who	What
RM	(Other) inputs for ideas for modular ABMs of SES	NG	Time and skills on editing papers (especially shortening them)
RM	Getting the didactic model off the ground	NG	Wide knowledge on SES
GD	Interesting projects	RM	Will work on modular architecture
SH	Empirical studies on social dynamics	RM	Experience on modelling
SH	Data!	RM	Work on didactic modelling
		GD	Being involved in proposal preparation (for interesting projects)
